

# Nanoleaf Skylight

## Product Leaflet

**Nanoleaf Skylight** is a smart LED flush-mounted ceiling light that features modular color-changing panels. Hard-wire one square panel, then connect additional ones to create endless unique designs, or extend your lighting into hard to reach spaces.

The diffused multi-point lighting mimics the natural sky within your home, illuminating your space in the most natural way with reduced shadowing.

Enjoy bright functional white lighting, 16M+ RGB colors, specially designed sky-themed lighting Scenes and a whole suite of Nanoleaf features including Rhythm Music Visualizer, Magic Scenes, Schedules and more.

# Features

## Nanoleaf Skylight

### Refresh Your Space

Illuminate your space with natural sky-like lighting with reduced shadowing. The bigger the layout, the brighter your Skylight!

### Modular & Customizable

Start small or go big with your layout with modular tiles that connect together easily, and brighten hard to reach areas.

### Set The Mood

Curate the feeling of your home. Boost productivity with bright functional lighting, or enhance special moments with color

### Smart Control

Control over Wi-Fi with the Nanoleaf App or smart home ecosystems, or with a manual switch.

### Get Into The Music

Elevate your music-listening experience with sound-reactive Scenes that make your lights dance along to any song.

### Enhance Your Routines

Wake up to a gentle sunrise, and be eased to sleep with specially designed Scenes that mimic the natural sky.

### Dynamic Color-Changing Scenes

Create & customize your own colorful lighting effects with over 16M+ colors to illuminate your room.

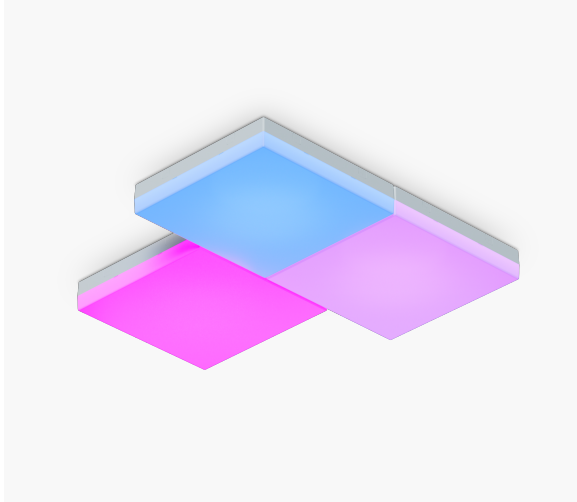

### Set Schedules

Automate your lights to turn on/off at specific times and days to make your daily routines a little easier.
